

Segmentation Flowmap — Alternative Models

Surveyed but not recommended — see notes on each for why

StarDist 2D

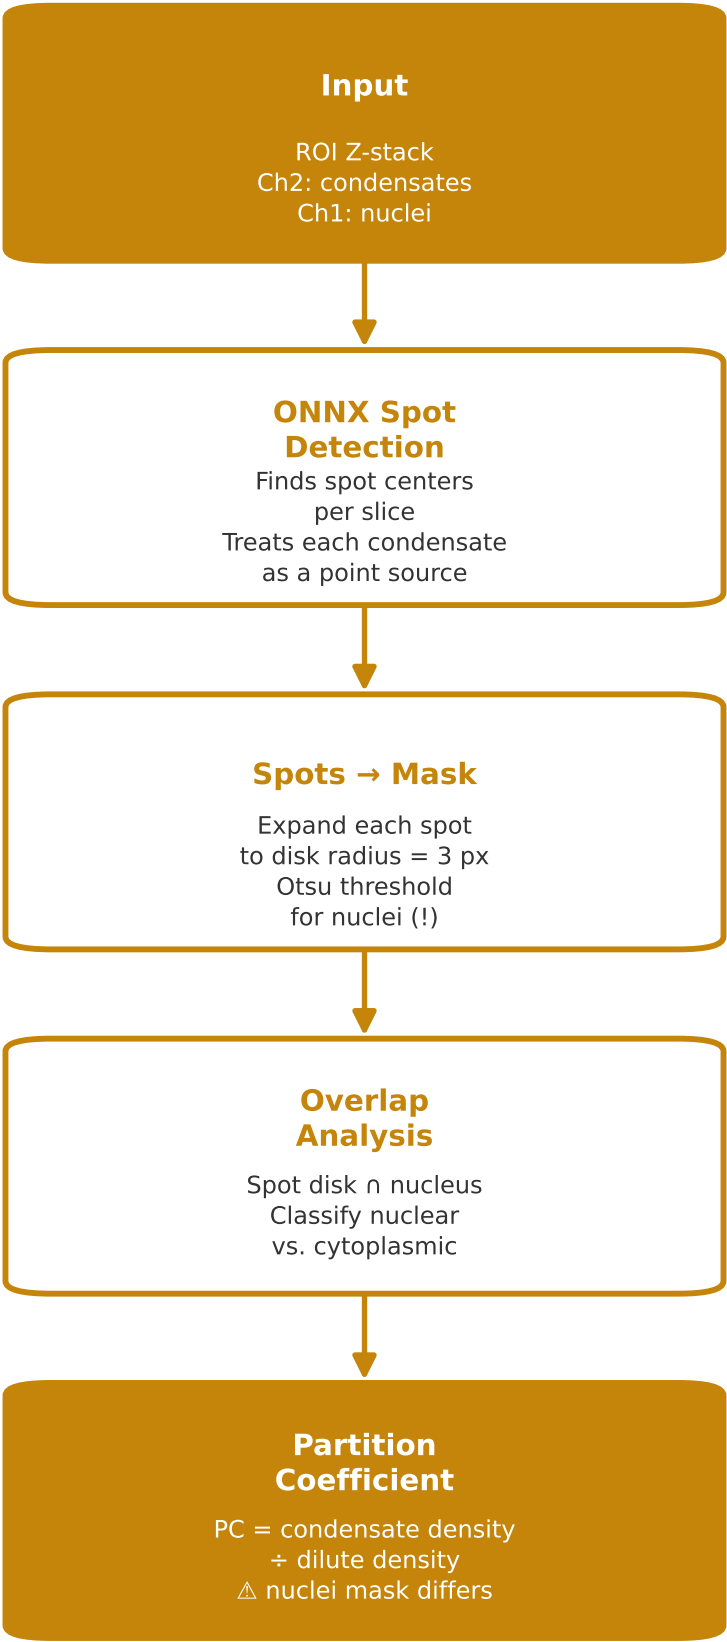

Designed for cell nuclei — not ideal for condensates

PC = 1.91 Runtime: 6 s

U-FISH

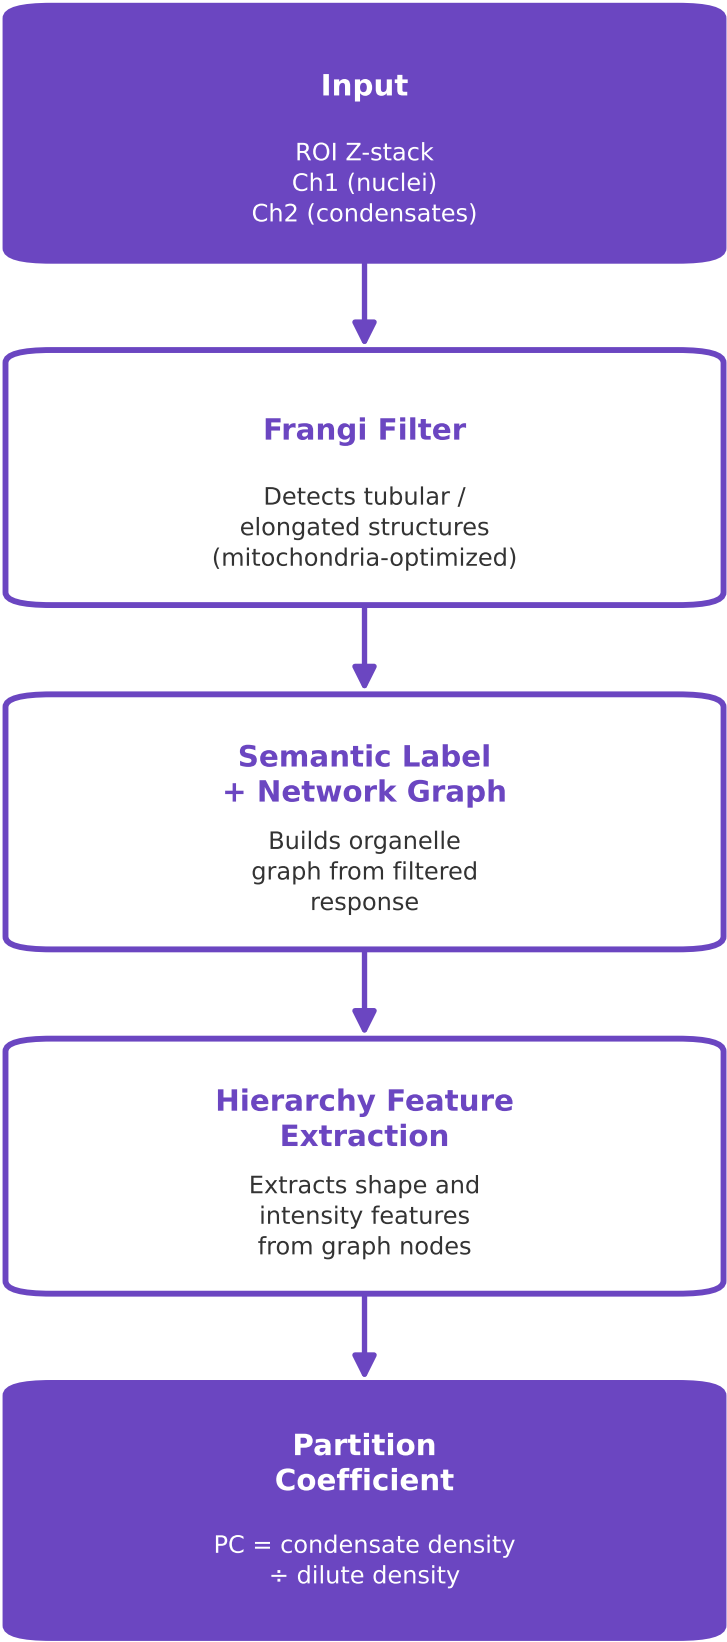

Spot detector — treats condensates as points, not volumes

PC = 3.81 Runtime: 2 s

Nellie

Designed for tubular organelles — not principled for condensates

PC = 3.57 Runtime: 14 s
